BBD Software Developement: Graduate Programme 2021

Company : BBD Software Developement
Location :Johannesburg, South Africa
Closing date: 31 August 2020

Job Description

BBD is an international software firm that solves real-world problems with innovative solutions and modern technology stacks. Our experience spans the education, financial services, gaming, government, insurance and telecoms sectors.

We maintain our track record by using our vast business domain knowledge and world-class skills to successfully deliver digital solutions into client organisations.
Our relaxed yet professional work environment extends to our flat management structure. Being a part of BBD means working on dynamic project teams while pursuing your own career growth through our Continuous Learning Programme.

About the BBD Graduate Programme

The BBD Graduate Programme lets you bridge the gap between what you've learnt at university and what you need to flourish in the IT industry. As a BBD grad, you'll gain real project experience and build your technical knowledge through exposure to a wide range of technologies and methodologies. You'll learn first-hand how to break and fix things, all the while working hard and having fun.

How to Apply

Apply Online for the BBD Software Development: Graduate Programme 2021

Click on the career tab, click on the apply link and please apply on the Graduate Programme Link. Please also state where you heard about the Grad Programme when applying.
